

WORK VALUE CARD SORTING SHEET

MOST IMPORTANT

IMPORTANCE SCALE

LEAST IMPORTANT

SORT THE CARDS

- ▼ Note the five columns printed under the Importance Scale at the top of each sheet. Each column has a number from 5 (Most Important) to 1 (Least Important).
- ▼ Read the statement on the cards.
- ▼ Put each card in the column that best matches how important it is for you to have a job like the one described on the card.
- ▼ You can only put four cards in each column.
- ▼ When you are done, the four most important statements should be in Column 5, the four next most important statements should be in Column 4, the four next most important statements should be in Column 3, and so on. The four least important statements should be in Column 1. You may have to move cards around until you have exactly four cards in each column.
- ▼ After you have sorted all of the cards, record your values on a Career Kōkua worksheet and enter them on the computer. The computer will then sort your work values and provide you with a score report.
